ABSTRACT

Despite the proliferation of alcoholism treatment research over the past 2 decades, there is a continued gap between what has been shown to be effective and what is practiced. The National Institute on Alcohol Abuse and Alcoholism discussed in detail in the AEDS data reference manual on per capita alcohol consumption (Nephew et al., 2010).

Has Your Life Been Affected by Someone Else's Alcohol Drinking? - Alateen and Al-Anon. The revised handbook, the DSM-5, defines problem drinkers or those with the disorder as people with at least two of 11 symptoms, including drinking that harms.
